## 1. INTRODUCTION

In the period of 01.01.2016 - 07.03.2016 the team of Transparency International Macedonia has evaluated approximate expenditures.

Due the change of the date of the elections the calendar of party activities has changed. This affected the duration of the monitoring and the project has been extended to until end of June 2016.

## 2. THE EXTENSION OF THE MONITORING PROCESS

### 2.1. CALENDAR OF ACTIVITIES

Due the change of the date of the previously announced elections (24.04.2016) the Assembly of the Republic of Macedonia on 23.02.2016 has announced the decision for delay of the elections for the 05. June 2016.

Following the previous amendments in the Electoral Code, the AAAMS adopted a new Decision for the paid political advertising in the broadcasting of the political campaign in electronic media, newspapers and the web sites. The date for ban on the paid political advertising has been also changed for 27.02.2016.

## **2.2 COORDINATION OF THE MONITORING ACTIVITIES**

- Memorandum of cooperation was signed between the organizations on 11.02.2016 that conduct monitoring activities in the current pre-electoral and electoral process. Signatories of the Memorandum for cooperation were chairs and representatives of the following CSO's: Transparency International Macedonia, MOST-civil association, The Communication Studies Institute, CEA and the CIVIL-Freedom center. In this occasion the organizations announced their decision to coordinate their activities and to exchange information to the highest possible extend in order to achieve higher level of transparency and accountability by all stakeholders participating in the pre-election campaigns and active in preparations for participating in the elections.

- TI Macedonia and CEA provided training for the CSO's members of the "Platform to fight the corruption" on the topic "MONITORING OF THE PRELECTORAL AND ELECTORAL BUDGET EXPENDITURES AND POLITICAL FINANCING." This is an additional activity dedicated to further extending CSO capacities in this area. The training took a place in the Hotel Arka, on 10.02.2016, organized by the MCIC.

### 3. INTENSIFIED POLITICAL PARTY ACTIVITY

In February 2016 there was noticeable increase of the political party activities through the country. The party members had numerous field activities, press-releases and media statements. TI Macedonia with the local partners has observed the following actions:

- Continuous promotion of the Government projects, equating the Government activities with the party activities by promoting the new projects in education, new projects for young people, opening of the new employment projects, new project for the enterprises, new projects in the health care.

- Increased party activity of SDSM (members meetings, debates, visit of other towns and villages)

- Unauthentic profiles on the social media become a places for promotion program

- Payed advertising campaign on social media (Facebook) continues (photos 1 & 2).

- Promoting the Government project on the political party web sites (photos 3, 4 & 5).

- Noticeable activities of the Albanian political parties DUI and DPA-reform movement and on the smaller Albanian parties (meetings with citizens, press-releases) (photo 6)

#### **4. APPROXIMATE PROMOTIONAL EXPENDITURES OF THE POLITICAL PARTIES IN THE PERIOD OF 01.01.2016 - 07.03.2016**

In the period of 01.01.2016 - 07.03.2016 the team of Transparency International Macedonia has noticed the following approximate expenditures of the political parties in the monitored regions referring to:

1. Newly opened local offices;
2. Rallies;
3. Local meetings with citizens/visits;
4. Online advertising.

The applied monitoring clearly shows that the political parties SDSM and VMRO-DPMNE in this period have spent approximately 50.000,00 EUR, individually. The expenditures are almost equally referring the rallies and the meetings with the citizens; while SDSM spends more on online advertising, VMRO-DPMNE spends more on opening of the new local offices. DUI spends mostly on rallies and meetings with citizens. The new local offices have not been opened by now. The expenditures in this monitoring period are approximately 25.000,00 EUR. DPA and the other political parties have not shown any noticeable activities in this period.

This data will be used in the further statistical processing of the expenditures of the political parties in the pre-electoral and electoral period.

## 5. MONITORING OF THE BUDGET EXPENDITURES IN THE PRE-ELECTION AND ELECTION PERIOD

### Central Government

#### Monitoring central level budget expenditure

- ✓ There has been an increase in the total tax revenues, during the month of January 2016, compared with the usual monthly trends for the concerning period of the year. However if the equal monthly execution of the budget is considered, the total tax revenue execution rate for the month is 7,43% which is almost 1 percentage points less than the balanced 8,33% (if the given budget line would be evenly executed on a monthly basis, throughout the year).
- ✓ During the month of January 2016, the value added tax (VAT) revenues are increasing in terms of the monthly seasonal movement, and the execution of the budget item in the month is 8,76%, which is relatively high compared with the previous year in the same period (January 2015) when the execution rate of the concerning budget line has been 6,9%.
- ✓ In the month of January 2016 there is a noted decline in the execution rate of the proceeds from the budget item Administrative fees and fines which is merely 5,6%, a low percentage compared with the balanced monthly execution of 8,33% (if the budget is evenly executed each month throughout the year).
- ✓ The budget deficit in the month of January 2016 is executed over the expected balanced monthly execution (8,33%), with a rate of 8,9% of the total annual budget. Compared with the monthly factors in the past periods there is no significant increase of the budget deficit budget item, typical for this period of the year.
- ✓ The issuance of Treasury bills, in January 2016, indicates an execution rate of 12,25% of the total annual budget, which is almost 4 percentage points above the expected execution rate of the balanced monthly execution of 8,33%.

- ✓ The execution rate of the budget item Foreign Loans for the month of January 2016 is only 2,02% of the annual plan. However, in the previous month (December 2015) the foreign loans budget item is 16,77 billion denars, which only in the month of December exceeded the planned annual budget multiple times, and the total execution rate of this specific budget item for 2015 is 458% compared to the annual budget plan.
- ✓ The capital expenditures in January 2016 mark an execution rate of merely 3,3% of the planned annual 2016 budget, with a low however usual/seasonal pattern for this period of the year and well below the monthly balanced execution of 8,33% if evenly executed each month during the year.
- ✓ The central budget line Social transfers - Pension and disability insurance fund (PDIF) (which includes the retirement expenditures) in January 2016 notes a significant increase compared with the usual monthly movement for this period of the year and unlike the previous months, November and December 2015, when there is an opposite significant lower expenditures compared with the seasonal/monthly movement of the execution. The execution rate for January 2016 is 9.61% of the total annual budget plan, and significantly over the expected monthly distribution of 8,33%. This is occurring as a result of the overdue arrears payments to the private mandatory pension funds.

#### **Announcements on the websites of the Government and selected budget users**

- ✓ A significant portion of the total announcements concerning spending/expenditures are published on the website of the Government of RM, while they are concerning other budget users which are the implementers or holders of information, which on the other hand are publishing any information on their web sites, hence the forwarding and resending of the Requests for Access to Public Information (RAPI) from one to another institution.
- ✓ Only 22% of the total number of announcements on the websites of the Government of RM and the selected budget users, contain financial data on actual/planned investments or for the posts which are announcing new investment.

- ✓ Only 5% of the total announcements contain analytical elaboration of the planned / implemented activities.
- ✓ A modest part of the announcements (approximately 10%) contain information on the financial sources and the programs/strategies/plans containing the announced or implemented project/activity.

- ✓ The budget users are not disclosing sufficient information regarding their activities on the websites. Despite the low number of the announcements, the content of the announcements is modest in terms of content of quantitative and qualitative data.
- ✓ Only 2 announcements/posts on the Government's website and 3 announcements on the web site of the Ministry of Finance contain analytical information within the post, while the other budget users' post do not contain essential data.
- ✓ Most of the announcements on all monitored websites are related to visits, meetings and conferences of the government officials during the reporting period.

### Local government expenditure monitoring

- ✓ During the month of February, there have been total of 97 operating and capital expenditures, recorded in the reporting period in the twenty four municipalities, with an initiated procedure for requesting for additional information.
- ✓ Based on the filed data form the local monitors, largest number of expenditures have been noted in the municipalities of Ohrid, Gazi Baba (unlike the previous period when there have been a low activity) and Strumica, while significant lower number of expenditures have been identified in the dominantly rural and smaller municipalities of Vrapchishte, Kratovo, Makedonski Brod and Chashka.

- ✓ During the month of February almost three quarters of the identified expenditures are capital expenditures. The major areas for investments generating capital expenditures for the municipalities are for: renovation/reconstruction of kindergartens, schools, and other educational constructions, road reconstruction and renovation and reconstruction of water and sewage network systems.
- ✓ Out of total of 97 recorded expenditures, 21 are for reconstruction of water and sewage network systems, 36 for reconstruction of roads and streets, 12 for renovation/reconstruction of schools/kindergartens/social homes and similar, and 28 other areas.
- ✓ Out of the 24 monitored municipalities, in 20 there are officially submitted 54 requests of access to public information (RAPI) while in the other there was no need for RAPI, nevertheless there is at least one expenditure recorded in each of the monitored municipalities.
- ✓ In the municipalities of Ohrid, Kratovo, and Kavadarci, the requested information are obtained without an official RAPI; for 37 recorded budget expenditures there has been no need for official RAPI and the information/answers are obtained through a field visit or contacting the responsible person through telephone/email.
- ✓ Out of the total 97 recorded budget expenditures, for 49 there are wholesome or partial information received through RAPI (13), or through a direct contact with the municipality or the information are publicly available. For the remaining part of the RAPI the answer are expected in the following period, until the deadline for receiving an official information on the RAPI expires. During the month of February there are 21 answers on RAPI out of the totally 46 submitted in the same month.
- ✓ Only 35% of the recorded expenditures in February are contained/planned within the Municipal programs, for 27% of the expenditures there is a municipal council Decision, less than half (41%) are contained/planned in the budget programs and the municipal plans. Only a modest 37% (18) of the expenditures have been specifically contained in at least 2 documents.

**Table: Availability of documents which contain/plan the expenditure**

Documents that support the expenditure	# expenditures in the monitored municipalities in January 2016	% of total expenditures out of total of 24 expenditures January	# expenditures in the monitored municipalities in February 2016	% of total expenditures out of total of 49 expenditures February
Planned within a Strategy	2	8%	0	0%
Planned within a Program	15	63%	17	35%
Planned within a Budget Program	12	50%	20	41%
Council Decision	14	58%	13	27%
Planned in a municipal plan	12	50%	12	24%
Expenditures contained/planned in all 5 documents	2	8%	0	0%
Expenditures contained/planned in at least 2 documents	16	67%	18	37%
Expenditures contained/planned in only 1 document	4	17%	7	14%

- ✓ Out of the obtained municipal quarterly reports on the budget execution for the fourth quarter of 2015, eighteen of twenty-four municipalities (reports obtained by the end of February 2016) can be determined that: none of the municipalities have executed the 2015 budget with over 90% of the planned/last revised budget, most of the municipalities (7) executed over 80% of the total 2015 budget, 4 municipalities executed between 70% and 79% of the total 2015 budget, while the remaining executed the budget with a rate of below 69%.
- ✓ The implementation/execution of the total capital budget for 2015 according to the obtained information for 18 municipalities is relatively small compared with

the planned budgets: none of the municipalities have executed the capital budget for 2015 with 80% or more of planned/last revised budget, 3 municipalities implemented between 70% and 79% of the total capital budget, 2 municipalities implemented the 60% and 69% of the total capital budget for 2015, and only 5 municipalities executed between 50% and 59% of the total capital budget for 2015, while the remaining 8 municipalities executed the capital budget for 2015 with a rate of below 50%

- ✓ The execution rate of the total operating budget for 2015 (for 18 municipalities) is substantially higher than the execution rate of the capital budget: 5 municipalities have implemented the operating budget for 2015 with a rate of 90% to 94% of the planned/last revised budget, 9 municipalities executed between 80% and 89% of the total capital budget for 2015 and 4 municipalities executed between 70% and 79% of the total capital budget for 2015.
