Dear all,

The 2017 was a year filled with challenges and hope for restoration of democratic standards and values in Macedonia.

The Center for Economic Analyses through its work contributed to improved efficiency of the public sector, more competent and credible civil society and more competitive business environment.

Through the research, monitoring and policy recommendations we provide, and in accordance with our mission, we commit to deliver timely, high-quality, and policy-relevant analyses that will be of social and economic benefit and will foster an environment that brings better governance, transparency and satisfactory rule of law.

In the coming 2018 we celebrate our 15 years Anniversary, and CEA will continue to question policies and inform debates through rigorous research and analysis on important developmental issues, with a strong emphasis on the socio-economic problems and more efficient and effective public finance.

It will continue to engage in capacity building efforts and contribute to a substantively vibrant and informed discourse on good governance, as well as strive to upgrade its communications and dissemination efforts in order to reach a much wider audience.

Please look through the palette of our work in the past years in the following pages.

Best regards
Marjan Nikolov
President of Center for economic analyses - CEA

2. Mission statements, objectives, goals of CEA

The Mission of CEA is to continuously research economic development and public policy in the Republic of Macedonia and to offer recommendations, suggestions and measures to the government and non-governmental institutions.

CEA members share a common vision of the Republic of Macedonia as a new emerging economy integrated with regional and world markets. They devote their time, efforts and knowledge to help make this vision become a reality.

CEA has been established in March 2003.

Goals of CEA:

1. To provide quality policy analyses;
2. To support viable economic policy in Macedonia;
3. To help foster an environment that brings about higher investment, accelerated development and growth of the Macedonian economy, and EU accession;
4. To achieve financial sustainability;
5. To encourage regional cooperation and collaboration in the Balkans;
6. To strengthen civil society, social capital and trust.

<p>The Institute for Democracy “Societas Civilis” (IDSCS) with the Centre for Economic Analysis (CEA) analyze how the process of Regulatory Impact Assessment (RIA) is implemented in the creation of laws and public policies in Macedonia and what are the opportunities for civil society organizations to engage in the process.</p> <p>RIA in the Shadow is project financially supported by the Delegation of the European Union and implemented by the Institute for Democracy “Societas Civilis” – Skopje (IDSCS) in collaboration with Center for Economic Analyses (CEA).The overall objective of this project is to contribute to advancement of good governance in Macedonia through networking and capacity-building of civil society for monitoring and analysis of RIA implementation, through increasing the possibilities for CSOs active involvement in the RIA process and the public policy reforms through networking, inclusive consultations and capacity-building, and by bringing the implementation of RIA closer to the public, understood as specific public embodied by CSOs but also as a wider public.</p> <p>The idea is to bolster the awareness about the effects of laws, and initiate pressure from a wider set of groups for better implementation driven by informed discussion and analyses.</p> <p>The final beneficiaries of the project are the citizens. Good implementation and application of RIA will contribute to higher quality of legislation, higher inclusiveness of citizens, raised level of legal certainty, better financial planning and higher transparency of the legislative and policy processes. The project dedicates particular attention to create linkages between actors from the civil society and the state institutions, as well as between actors within both sectors.</p>							<ul style="list-style-type: none"> • Policy paper developed Cost analyses of the RIA process in Macedonia (http://cea.org.mk/wp-content/uploads/2017/12/Analiza-na-trosoci_ANG.pdf) Analyses of the quality of RIA forms in Macedonia (http://cea.org.mk/wp-content/uploads/2017/12/Analiza-na-kvalitetot-na-formularite-za-PVR.pdf) Two policy brief how to improve RIA process in Macedonia (http://cea.org.mk/pvr-vo-senka-dva-dokumenti-za-javni-politiki-kako-da-se-podobri-pvr-vo-makedonija/) • Public presentation of findings • Facilitation of a discussion meeting between former relevant representatives of the involved stakeholders, such as ministers of informatics and public administration, , etc. • Policy and advocacy activities • Awareness raising activities • Review of the policies – Macedonian version • Network for better legislative • Sub granting related small scale projects

<p>Project: Strengthening Financial Accountability and Transparency in Macedonia</p> <p>The State Audit Institution is one of the rare independent regulatory bodies that fulfils its mandate. Even though the reports produced by SAO contain information that would be very helpful to MPs in the process of conducting oversight, the MPs within the Parliament do not have the practice to review the individual audit reports.</p> <p>By implementing activities with SAO and Parliament, we work towards changing the practices of the MPs and motivating them to review the individual audit reports. This practice will enable MPs to do more and better financial and budgetary oversight. Additionally the public presentation of the findings by using innovative online and offline tools will aim to inform the public, CSOs and other stakeholders about the work of SAO and contribute towards creating a critical mass that will pressure MPs to review and use this reports when doing oversight.</p>							<p>Concrete activities CEA undertook in this project are:</p> <ul style="list-style-type: none"> Assessment of legislative/regulatory provisions on the work of SAO in Republic of Macedonia http://cea.org.mk/wp-content/uploads/2017/02/WFD-CEA-Finalna-publikacija-FINAL-ENG.pdf Map containing stakeholders related to the work of SAO and their internal relations containing assessment of mandates, scope and roles of different stakeholders related to the work of SAO; Methodology for monitoring of the work of SAO with matrix and indicators for monitoring Monitoring of the work of SAO -http://cea.org.mk/wp-content/uploads/2017/03/DZR_priv_kvartal_final.pdf -http://cea.org.mk/wp-content/uploads/2017/05/CEA-MONITORING-Q2.pdf -http://cea.org.mk/wp-content/uploads/2017/09/CEA-MONITORING-Q3_.pdf -http://cea.org.mk/wp-content/uploads/2017/12/WEB_CEA-MONITORING-Q4.pdf

<p>From 2010, CEA is engaged for monitoring the fiscal transparency in Macedonia, under The Open Budget Index (OBI) is the world's only independent, comparative measure of central government budget transparency. The OBI assigns countries covered by the Open Budget Survey a transparency score on a 100-point scale using 109 of the 140 questions on the Survey. These questions focus specifically on whether the government provides the public with timely access to comprehensive information contained in eight key budget documents in accordance with international good practice standards</p> <p>CEA is also conducting The Open Budget Survey (OBS) Tracker which was a pilot project run between November 2013 and November 2015, which allowed citizens, civil society, media, and others to monitor in near-real time whether central governments were releasing the requisite information on how the government is managing public finances. Using data collected by independent civil society budget experts in the 30 countries included in the pilot, the OBS Tracker monitored and reported on whether central governments were publishing, on time, the eight key budget documents required by international standards on budget transparency.</p>							<p>-Monitoring and Fulfilling questionnaire for budget transparency in Macedonia, based on concrete methodology.</p> <p>-Public presentation on the results</p> <p>Results of the work: https://www.internationalbudget.org/opening-budgets/open-budget-initiative/open-budget-survey/publications-2/rankings-key-findings/rankings/</p>

<p>Project: Coalition budget monitoring The objective of enhanced transparency of the municipal budgeting process in Macedonia was to encourage the citizens to take more active role in the prioritization of the local public expenditures through inclusion of the civil society in the decision-making process. During the implementing process, a specific monitoring methodology was developed, sub grantees - grass root organizations were trained to improve their knowledge of the budget process and legislative framework for local government. All grassroots organizations together with CEA and FORUM became part of the informal group Coalition for Budget Monitoring with an increasing interest for further extension. The cooperation and the established network with the grass roots readily to monitoring the fiscal transparency, continued to operate in 2016, focused on the monitoring the municipal spending in the pre-election period. The Coalition is comprised with the following organizations: Klea Bitola, Foundation Focus-Veles, DROM Kumanovo, EHO-Shtip, FRLZ –Shtip, Mladinska Alijansa-Tetovo, ZCOR Debar, Ackija Zdruzenska, ZIP Institute Skopje. The CSO initiative enabled improved public private dialogue and increased awareness of the LSGUs for the need of inclusive budgeting process on a local level often used by the DEU as a positive example of CSO initiative.
