## Description of the Biking trail

This bike trail will allow you to meet a part of the Prespa region, with its authentic villages that fortunately still have preserved the original architecture and look. The Prespa region is characterized by the rivers that pass through the rural areas and the agriculture development (farming, livestock, beekeeping, fruit production, etc.) from which people exist.

The bike trail is marked with wooden road signs and its total length is 30 km with 300 m elevation. This trail is included in the category of medium-easy path suitable for beginners.

10 km of the trail is an asphalt road and 20 km off road. The first part of the trail will provide you with a fascinating view of Prespa Lake, passing through several villages. The starting and ending point of the trail is the village Brajcino, which is located at 1000 meters above sea level below the slopes of Baba Mountain. Beech and Oak forest give special splendor to this village. The numerous streams, merging each other near the village, create Brajcino River, and with its picturesque valley, splits the village of Gorno Maalo (its left side) and Dolno Maalo (its right side). The trail continues through the village Ljubojno and v. Dolno Dupeni and then to the village Nakolec passing through apple plantation. The Krani Camp is the next destination where the bike trail passes and continues to the most distant point, the beach Slivnica and the Coca Auto Camp where you can take a rest and recreation on the beach. The end point of the trail is village Brajcino, where you will ride through the same route backward to the village of Nacelec and then proceeds directly to the village Ljubojno and ending in v. Brjacino - the final destination.

## Promotion of biking trail Brajcino

The promotion of the new Brajcino bike trail will be held on 28.09.2019 – 29.09.2019 in Resen. The promotion of the Brajcino bike trail lasted two days and included camping, boat trip to the island of Golem Grad, a biking mountain tour through the Prespa region's natural beauties and tasting traditional food.

## What should you bring with you?

- Good mood
- Mandatory technical upright mountain bike and equipment.
